

Secondary 1 Mathematics

Teacher: Mrs. Carré

Office: B117

Lunch Resource: Day 7 in the Resource Center

Dear parents/guardian,

I am honoured to be your child's math teacher for the 2018-2019 school year. Please read the following important information that will help make the year a successful one for us all. Please sign and return the slip at the bottom of the page to let me know that you have read this note.

Organization

- Students are to write their name and the date on everything (class notes, homework, worksheets, assignments, etc)
- I suggest using a binder in order to organize student handouts.

Homework

- Students will be assigned homework for every lesson. Please check that your child is completing their assigned math work.
- Students should be reviewing math notes and class problems on a daily basis. I strongly encourage all students to review all math lessons as they are taught, in order to ask me questions or any clarifications. Concepts learned throughout the year should be reviewed on a regular basis as they will be evaluated at the end of the year.
- Students will be given time in class to work on their homework.

Math Help Services

We will be using the Interactive Workbook this year. All MHS documents, assignments, notes and video lessons are available through student's math help services account. Please check your account on a daily basis.

Assignments

- Assignments must be handed to me personally, on the due date that was given.
- Should your child be absent, their work must be handed in to me personally, on the next school day that they are present (even if there is no math class that day).

Rules

- **Be prepared**
Students must bring all the materials they will need at the beginning of class.
Students are to show up to class on time.

- **Be respectful**
Students are to respect themselves, their classmates, their teacher, and their environment.
- **Be responsible**
Students are responsible for their own learning by following directions, respecting deadlines, completing their own work, asking questions, and asking for help.
- **Be focused**
Students must listen when the teacher is teaching, concentrate on the task at hand, and minimize distractions.
- **ALWAYS TRY YOUR BEST!**

Electronic Devices

Electronic devices (except for calculators) will only be permitted for specific assignments. Please see electronic device policy in the agenda.

I encourage all students to work in a quiet work space with minimal distractions both at school and for homework routines.

Extra Help

- I encourage students to attend math resource that is offered in the morning and during every lunch in the resource center.
- My extra help is Day 7 at lunch in the resource center. Extra help is also available upon request at lunch in B117.
- Extra help is offered to answer students' questions, to support students who require extra help, and to review before evaluations.

Communication

- Please consult my webpage on a regular basis for important dates, topic lists, and homework assignments.
- Please contact me via e-mail at elise.carre@rsb.qc.ca should you have any questions or concerns.
- Students are asked to have their parent/guardian sign all evaluations and returned on the following class.

Evaluation

- Students will be evaluated using the Quebec Ministry's competencies: C1 (situational problems) and C2 (math reasoning).
- Term 1 end of term evaluation
- Term 2 January exam
- End of year exam

Absence

If you are absent please consult my webpage. Should you be absent on the day of an evaluation it is your responsibility to come write your missed evaluation in B117 at lunch.

Website

- Please check the website on a regular basis.
